MEETING OF SCHOOL DISTRICT RATEPAYERS

SATURDAY NIGHT

Acting on the petition of a number of ratepayers, a meeting of ratepayers of Blairmore School District No. 628 has been called to take place on Saturday night at the schoolhouse at 8 o'clock sharp, at which a chairman and secretary will be chosen and the difficulties confronting the teachers and board will be considered.

The ratepayers at this meeting will decide what action to take in respect to the proposed cut in salaries.

All ratepayers are urged to attend this meeting and see for themselves just what is doing.

WHEATLEY-HOUBREGS

A pretty, but quiet wedding was solemnized at St. Albans' church, Coleman, when Wilfred, son of Mr. and Mrs. Frank Wheatley, was united in marriage to Mary, eldest daughter of Mr. and Mrs. Louis Houbregs, both of Blairmore. The bride, becomingly attired in a navy blue suit with hat to match, and carrying a bouquet of beautiful Ophelia roses, was attended by her sister, Florentine, wearing a costume of saxe blue and sand, carrying a beautiful bouquet. The groom was attended by Leslie McDonald, of Bellevue.

Rev. H. L. Nobbs officiated, and after the ceremony a reception was held at the bride's home in Blairmore. In the evening the hockey boys and other friends were entertained to a delightful supper. The young couple will reside in Blairmore.

RED CROSS DANCE AT FRANK

The citizens of Frank rallied round enthusiastically on behalf of the Red Cross Society to a community dance, which was sponsored by Mrs. A. Sherring, Frank House, who is secretary of the local branch.

The ladies assisting wore Red Cross nursing uniforms and looked charming in their caps and aprons.

Through the kindness of Mr. and Mrs. Crawford, the use of the hall was granted free of charge. The Night Hawks orchestra, of Coleman, supplied excellent music. Mr. Burns, of McLaren Lumber Co., kindly donated the lumber used for the booth for the sale of flowers. Mr. Murray, station agent, spoke on behalf of the Red Cross and its needs. Thanks are due to Mrs. Sherring for the energetic and enthusiastic work which resulted in this being voted the best dance of the year. To Mr. and Mrs. Dunlop, Mrs. Crawley and all those who assisted in any way, the appreciation of the Red Cross is tendered.

An interesting feature was the gift of a beautiful iced birthday cake, the property of little Willie Sherring, on his eighth birthday, to the Junior Red Cross, with the request that it should be sold on behalf of the Sick Children's Fund.

Mr. A. Sherring acted as treasurer of this dance as owing to the death of his son-in-law, the late Andrew Bower, of Pincher Creek, Mrs. D. Dunlop was not able to do so, but in future Mrs. Dunlop will fill the office of treasurer of the Frank Red Cross.

LETHERBRIDGE EXHIBITION

MEETING OF TOWN COUNCIL

The regular meeting of the town council was held on Monday night last with Mayor McLeod, Councillors Gillis, Montebello, Ferguson, Sartoris and Patterson and Secretary Wright present.

The following accounts were read and upon approval by the various committees were ordered paid: Attorney General's Department \$240.00,

L. Meldeons \$50.00, S. Ennis \$12.80,

F. M. Thompson Co. \$14.50, Northern

Electric Co. \$44.43, Macleod Hospital \$88.75, R. Crawford \$44.00, Mrs. Or-

lando \$25.00, M. L. McKinnon \$16.00,

F. Amato \$42.00, S. Seini \$42.00, A.

W. Robbins \$34.00, L. Palma \$21.50,

Knapnian Plumbing Co. \$17.68, A.

McLaughlin \$36.00.

J. E. Gillis gave notice that at the next regular meeting of the council he would introduce a By-law setting the mill rate for the Town of Blairmore for the year 1925.

The suggested revision and repeal of By-law No. 4, being the License By-law, was submitted to the council by the committee appointed by the Mayor and after consideration had been given and a few amendments made the new by-law received its first, second and third readings and finally passed.

The meeting then adjourned.

NOTED DANCING TEAM

WILL PERFORM HERE

Alex. Powell and Myrtle Duffy, who are professionally known to the public as the "Bluebird Dancers," will perform at the dance to be held in the opera house on Friday night.

This dancing team, fresh from a tour in the States, have registered a big hit wherever they have appeared, and newspapers praise their work very highly.

Mr. Powell, while visiting his parents in Edmonton, is making a tour of the province before returning to the States.

It will be interesting to know that Mr. Powell has lived in this locality five years ago and has a wide circle of friends. His appearance will undoubtedly prove very interesting as he has won a high recognition in the dancing profession across the line.

LETHERBRIDGE EXHIBITION

PAVILION BURNS TO THE GROUND

Fire of uncertain origin completely destroyed the beautiful ornate main pavilion of the Lethbridge exhibition buildings on Friday evening last. The loss is estimated at between forty and fifty thousand dollars, partly covered by insurance. It is not likely the building will be rebuilt.

ST. LUKE'S CHURCH

Rev. Mr. Biddle, of Pincher Creek, will conduct services as follows on Sunday the 28th of June: 11 a.m., Matins and Holy Communion.

The will of the late Sir August Nanton, distinguished Canadian financier, will be filed for probate shortly. The total assets of the estate are valued at \$1,750,000 with liabilities of over \$500,000.

FOR THE TAXPAYERS TO KNOW

The following has been handed in to us for publication:
School salaries on a basis of 200 days a year. 313 working days, of which they teach 200.

Canada's Tied-Up Resources

(Second Article)

Apart from its agricultural lands, the material wealth of Canada is to be found in its natural resources—forests, fisheries and minerals. Through their development for use at home and abroad Canada can obtain much-needed population, traffic for railways, and financial strength to carry and ultimately discharge the huge national debt of the Dominion.

Why is it, therefore, that in respect to its great mineral wealth so little has been done to develop these resources and thus provide for use by Canadian industries of many of those raw materials, or semi-manufactured products, which at the present time are imported in huge quantities?

The answer cannot be given in a few words, but requires some explanation. In years gone by, protected by a high Customs tariff, Canadian manufacturers had a glorious opportunity to develop their industries in a way that the United States largely independent of foreign countries. They neglected their opportunity. Instead of making use of the protection afforded them to develop the coal, iron, copper and other mineral deposits of their own Dominion, they continued to largely import these raw materials, and merely added the amount of the tariff to their selling price and pocketed it as additional profit.

During this period of Canada's history, these mineral resources could have been purchased and developed at a fraction of present-day costs. But short-sighted manufacturers allowed the opportunity to go unheeded. Others, however, with greater vision began to build themselves and quietly, without any flourish of trumpets, United States capitalists and manufacturers have for years past been buying control of the natural resources of Canada.

The policy of United States capitalists and manufacturers has been a far-sighted one, aimed at the accomplishment of two main things. They have secured ownership and control of vital resources in Canada, not with the object of proceeding with their immediate development for use, but with the deliberate intention of tying them up and preventing present development. To what end was such a policy adopted?

In the first place, so long as Canadian manufacturers were content to go on buying supplies from the United States, which they could obtain for themselves through development of resources at home, just so long were these United States interests securing a very profitable business. Furthermore, as long as Canada's resources remained undeveloped, just so long were those supplies kept from entering into competition with similar supplies from the United States and those interested in the United States enabled to thereby increase their profits of trade. The day of trade with Canada, if Canada's resources would have threatened. In other words, the United States not only retained its best foreign customer, but non-development in Canada enabled United States interests to keep prices up at home and abroad.

There was another consideration which had great weight with United States investors in their purchase of Canada's undeveloped resources. They foresaw that, with the rapid increase in the population of their country, the day was coming when their own natural resources would become exhausted, or at least prove inadequate to meet their own needs. Taking time by the forelock they therefore have been buying up Canada's undeveloped resources and holding them in an undeveloped state in reserve against the day when they will be urgently required and be multiplied many times in value.

Evidence of the truth of these statements can be found on every-hand. Rich deposits of copper are known to exist in Canada but are not being developed. They have passed under United States control. Let an oil well be discovered in Western Canada, as they have been, and they are "capped" and only the surplus overflow which would otherwise be wasted is used while the main flow is held in reserve and trailheads of crude oil from the United States continue to feed refineries in this country. Thus is employment provided in the United States, and means of employment checked in Canada; thus is traffic provided for United States railways while Canadian railways are operated at a deficit; thus is Canadian money steadily diverted to the United States when every dollar is needed at home to carry the heavy burden of our war debt.

On the other hand, enormous development is taking place in the pulp and paper industry of Canada. It is growing by leaps and bounds and is being developed for the most part with foreign capital. Why? Because of the depiction of United States pulp resources and the demand for paper across the line. There is more than one paper mill in Canada, using Canadian water power and Canadian logs, owned entirely by United States interests and whose whole output goes to the United States, while Canadians who have sought to purchase paper have been refused so much as a pound.

With some of the most extensive coal areas in the world, the mining of coal in Canada is still in its infancy while Canadians go on incurring scores of millions of dollars' worth of coal every year from the United States. Canadian miners are paid as high wages as anywhere on the continent, yet are constantly on strike for long periods and in receipt of "strike pay" from across the line, while United States miners are busy supplying the Canadian market.

Such is the situation in Canada today. What is the use of Parliament spending its time discussing ways and means of promoting immigration, or of how to stop the exodus of people to the United States, or of considering such futile policies as still higher tariff protection in order to stimulate industry and provide employment, when the basic resources of the Dominion through the development of which employment could be provided, not only for the present population, but millions more, are hopelessly tied up and their development prevented as a matter of deliberate policy?

Fish Weighed Five Tons

A skua caught recently weighed 250 lbs., which is 50 lbs. more than the heaviest naturalists of a century ago thought them with means. The greater number ever attained. But, the devil fish of the West Indian seas, which like the Old Country people, ex-European Government and other officials common skua, is a ray and resembles it in structure and appearance, is often much larger. One caught in 1823 weighed nearly five tons. In a dramatic account of his capture we read that "three pairs of oxen, one horse and 22 men all pulling together could not convey it far."

A fish hook 5,000 years old is found in the ruins of Kish. And the "all-red" cable and wireless road, which is being established between good story. Let the search proceed. British possessions the world over.

Fresh and carefully packed in pure olive oil. Keep a stock in the pantry for easily prepared, enjoyable meals.

KING OSCAR SARDINES

Italian's Latest Invention

Driver Balances "Unicycle" With Body and Feet as Brakes

At last the "unicycle" has been invented by Davide Gialighi, an officer in the motorcycle police corps of Milan, Italy. The unicycle consists of a large steel loop and an outer revolving wheel fitted with a pneumatic tire. The engine, steering wheel, and driver's seat are constructed, within the circumference of the stationary seat, to which the revolving wheel is attached by rollers. The driver balances the machine with his body as it turns over, and uses his feet as effective "brakes" whenever he desires to stop.

Mother's Best Friend In Rearing Children

Pain and sudden sickness are apt to come upon children, now and then. How about having a talisman, however, on the shelf a reliable pain relief like good old "Nervilene"? For nearly half a century "Nervilene" has been a family standby, and mothers have had no reason to fear. In case of cold, sore throat, tight chest, sprains, cramps, nausea and sudden attacks of sickness at the stomach. For general or external use, "Nervilene" is a valuable weight in gold in every home, and costs but 25 cents at any dealers.

Expedition In Indus Valley

Col. Theodore and Kornel Roosevelt, heading the James Simpson Field Museum, Chicago, expedition to Central Asia, have arrived safely at Leh, in the Valley of the Indus. They are proceeding to Kashgar, Eastern Turkistan. All members of the party are well, the messages said.

She Is Satisfied With the Results

Quebec Lady Used Dodd's Kidney Pills

Madame E. Tremblay Suffered With Neuralgia, Headaches and Pains In Her Back.

Groses Roches, Que.—(Special)—

No place appears to be too remote for those persons who are prepared to say that they owe their health to the great Canadian Kidney Remedy. Madame E. Tremblay, a well-known resident here, is one of them.

"Your Dodd's Kidney Pills have done me much good," says Madame Tremblay. "They strengthen the kidneys so they do their full work of straining the impurities out of the blood." Dodd's Kidney Pills have been used for many diseases, including rheumatism, dropsy, urinary troubles and heart disease. People who use them are loud in their praise.

Dictionation

Some men are born famous, some achieve fame, and some send postals to radio stations saying: "Your programme came in fine; we greatly enjoyed the God Liver Oil Quartette."

THANKFUL MOTHERS

Once a mother has won Dr. Minard's Tablets for her little ones she wants nothing else. The Tablets give such results that the mother has thanked us for words of praise and thanks for these wonderful blessings of mothers throughout Canada who praise the Tablets. Mrs. David A. Anderson, New Glasgow, N.S., writes: "I am sending you my Dr. Minard's Tablets for my children and from my experience I would not be without them. They would urge every other mother to keep a supply of the Tablets in the house." The Tablets are a mild but thorough laxative which relaxes the bowels and sweetens the stool, due to its constipating and sedative, breaking up spasms and also fevers and making toothaching easy. They are sold by medicine dealers, or mail at \$2 a box from The Dr. Minard's Medicine Co., Brockville, Ont.

Is Enjoying Wembly

From Baffin Land Falls In Love With Walrus

Nanayring, the Eskimo, who came all the way from Baffin Land to see the British Empire Exhibition, is out and about again.

It will be remembered that on his arrival here, one day of London was enough to lay him low with pneumonia. He spent four weeks in Crouch End Hospital.

He is now 4 ft. 11 ins. of sheer delight all the time, and fell head over heels in love with "Old Bill," the walrus, and with one of the restaurant waitresses.

As official painter of fantastic jungle creatures, Miss Isabell Cooper, a member of the expedition investigating the Sargasso Sea, lays claim to having the "most peculiar job in the world."

This will quickly offend the diarrhoea condition and purging, and, perhaps save the lady's life.

Put on only by The T. Miltura Co., Limited, Toronto, Ont.

CLIPSE FASHIONS Exclusive Patterns by Hazel Gray

1031

An Attractive House Frock

A frock for which you will find numerous uses, one that is practical and yet will fill the need for almost any occasion, is here shown. It may be made in any size and at any time and is delightfully easy to make. It has kimono sleeves, with shoulder seams, and may be of plain gingham for a house dress, or of lace or organdy for a party. It may be made with square neck or round neck and collar and with or without cuffs. The pattern, No. 1031, is cut in sizes 28 to 36 inches. Materials required: 1½ yards of 36 or 40-inch material and ½ yard of 36-inch contrasting material for trimming.

SUNDAY SCHOOL LESSON

JUNE 28

VIEW IN JUDEA AND SAMARIA

Golden Text: Ye shall be my witness both in Judea and in all Judea and Samaria, and unto the uttermost part of the earth. Acts 1:8.

Devotional Reading: Psalm 95.

The early church started into existence—the disciples talked with Jesus, just before He ascended. He said to them that they shall be my witnesses both in Judea and Samaria, and unto the uttermost part of the earth.

The lessons of this quarter have been designed to help the children understand the importance of their witness to him in Jerusalem, Judea and Samaria.

The apostles "had thought of launching a new movement—the early church, as we call it. They had no organization, no programme. They were terribly troubled by the Lord's command to go forth and preach the gospel to all nations.

On the day of Pentecost came, and suddenly the converts increased in number, their hopelessness in confidence, their powerlessness in power.

On the great day Christ came in glory, and the apostles were converted into apostles, their eyes opened, their hearts changed, their voices raised, their bodies glorified, their souls filled with the Holy Spirit.

EXPECT TROUBLE AT CAPE BRETON MAY END SOON

Sydney, N.S.—My personal view is that a settlement can, and should be, brought about within the next 10 days," is the concluding paragraph and most cheerful part of a statement issued by Hon. James Murdoch, minister of labor, at the conclusion of his conversations here with district 26, United Mine Workers' executive, and with J. E. McLurg, vice-president of the Dominion Steel Corporation.

Mr. Murdoch has been attempting to conciliate the differences between the two, for which the miners have half have caused a stir up in the coal fields of the province. The district board of the miners, Mr. Murdoch states, have asked for a few days time to canvas certain questions contained in the company's proposals for a settlement, as submitted to Mr. Murdoch, by Mr. McLurg, and to prepare the questions at issue for submission to a referendum vote. The statement says that the district board, when presented with the corporation's proposals, found therein two or three things which appeared almost, if not entirely, impossible of acceptance. Mr. Murdoch also tells of an offer of the miners to return all maintenance men pending a settlement, and of the corporation's refusal, on the ground that they were unable to use all the maintenance men because of the present condition of the mines.

Closer Relations With West Indies

Danger of Islands Becoming Part of the United States

Ottawa—Expressing the hope that the conference here between the Canadian Government and delegates from the various British possessions in the West Indies may result in a closer knitting together of relationships between Canada and the Indies, members of the delegation from Jamaica, in an interview, stated that at present most of the tourist traffic and trade coming Jamaica is from the United States. Jamaicans being breeders desire a more intimate relation with Canada and other states of the Empire.

The increasing influence of the United States in both the export and import trade of the West Indies is constantly brought to the attention of the Islanders, the delegates state, and unless Canada and Great Britain wake up to the importance of this trade, and the necessity of encouraging closer relations between the different parts of the Empire, there is grave danger of these islands some day becoming associated, politically, as well as commercially, with the United States.

Crops Ruined By Floods

Three Hundred Acres Destroyed in Districts in Manitoba

Winnipeg.—Seventy-five per cent. of the crops in the Whitehead and Birch River districts have been completely ruined by floods according to a report submitted by C. S. Prodan to the Provincial Government. Mr. Prodan had charge of relief operations in the inundated area.

More than 300 acres were flooded, causing considerable property damage and loss of stock. While Mr. Prodan indicated that floods were an annual occurrence in these districts, the situation was the worst experienced in the history of the settlement. Many of the families who are entirely dependent upon their crops for a livelihood, have been reduced to destitution. Twenty-seven families are now being cared for by the provisional relief bureau.

Abolish Famous Prison

Russian Bastile on Banks of Frozen White Sea to be Closed

Moscow.—The Solovetsky monasteries, a desolate forbidding prison camp on Solovetsky Island, in the frozen White Sea, which has been the terror of political offenders under the Soviet regime, will soon become but an echo of the past.

On recommendation of the state political police, the council of people's commissars has decided to abolish the prison.

Samuel Leaves Palestine

Jerusalem.—Sir Herbert Samuel, first British high commissioner of Jewish faith in Palestine, who is retiring, took leave of the Jewish community at a farewell reception at the Hebrew University here. Sir Herbert is to be succeeded by Field Marshal Lord Plumer.

W. N. U. 1882

Question of Sea Rates

No Immediate Action to be Taken By Government

Ottawa.—The question of the Peterhead contract and regulation of ocean liner rates on a question by Rt. Hon. Arthur Meighen, Conservative leader, "I would like to know if the government, without any action being taken, or recommendation to parliament, in respect to what was called in the speech from the throne 'transportation by sea.'

"We have a report from what should be known as the Petersen committee, but it has lain dormant for some time. Does the government propose to introduce any legislation or ask for any authority from parliament arising from that report, or is this session to end with nothing done?"

Premier Mackenzie King replied that the circumstances under which the government had considered it advisable to proceed with the discussion of the report of the committee must be known to the members of the house.

"In view of the sad death of Sir William Petersen," he stated, "we have decided that it would be fitting to bring this into the house at this time, the discussion of his name in letters relating to his project. The government, however, intends very seriously to consider the recommendations contained in the report for such action as may be deemed best. I do not think that it will be advisable to contemplate immediate legislation."

King Will Open Canada Building

Historic Ceremony Takes Place in London

London.—Arrangements for the formal opening of the new Canada building in Trafalgar Square by King George V, on June 29, have been completed, and the opening will be impressive as well as historic.

The King and Queen will be received before the main entrance of the building by Hon. P. C. Larkin, Canadian high commissioner to London and at the King's request their Majesties' entrance the Queen will receive a bouquet from Miss Larkin, wife of the high commissioner.

The King and Queen will proceed to the dais while the National Anthem is being played by members of the Royal Guards band. Then will follow an address to the King, read by Hon. M. L. MacLennan, His Majesty's rep "On Canada" will be played by the band, after which will follow the official presentations of prominent persons to their Majesties.

Their Majesties will then be invited to make an inspection of the building.

France Suggests Arbitration

Votes Germany's Suggestion For Part of Security

Berlin.—France has vetoed the German suggestion for a general pact of security throughout Europe, and has suggested, instead, that Germany negotiate with all contiguous nations. France definitely proposes arbitration treaties between Germany, and her neighbors instead of the general pact, and then proposed that Germany conclude "with other signatories of the Versailles treaty whose frontiers are contiguous to Germany." Therefore it had been assumed that Britain and Italy would participate in any treaties growing out of the security negotiations, but the formalia created in the Wilhelmsstrasse, because it clearly limits the arrangements to Germany, France, Belgium, Poland and Czechoslovakia.

Belgian Cabinet

Brussels.—After having been ten weeks without a cabinet, Belgium now finds itself possessed of a duly constituted ministry. It is headed by Vincent Poelbel. The general council of the socialist party by a vote of 10 to 1, gave its approval and adherence to the new regime.

The personnel of the cabinet is made up of Socialists, Liberals and Catholics.

Praise Work of I.O.D.E.

Halifax, N.S.—At the annual meeting of the council of the Navy League of Canada, on motion of Major W. H. Langley, of Vancouver, a special vote of thanks was passed to the Daughters of the Empire, which President Sam Harris, of Toronto, described as "the big sister of the Navy League." Reports were received from the various provincial branches.

A new element called hafium, recently discovered by Danish scientists, may be used in radio tubes.

Premier Expresses Opinion On the Flag Question

Ottawa.—No action will be taken respecting a Canadian flag without the "full sanction of Parliament," said Premier King in the house in answer to questions as to the government's intentions regarding a Canadian flag. "Personally," said Mr. King, "I would be proud and happy to have the Union Jack represent Canada as a national flag, and would not lend any support to any flag not having the union as its most distinctive feature."

Boundary Line Settled

Canada Gets 2½ Acres of Water in Lake of the Woods

Minneapolis.—By giving Canada two and a half acres of water, the United States has formally settled an argument which has covered 122 years of treatise, talk and triangulations.

The water will not be transferred until now being engraved on the map, which shows the boundary from the northwest angle of Lake of the Woods to Lake Superior are issued some time next year, the water will become officially "Canadian" and Minnesota citizens will know at last how far north the state's boundary goes.

Under the treaty between the United States and Canada, which has been approved by the senate, about two and one-half acres of American waters in Lake of the Woods will be transferred to Canadian territory. This does not involve any transfer of land.

The big guns on the navy craft anchored in the bay thundered farewell as the little steamer slipped away on the first leg of the trip beyond the Arctic Circle. A navy band on the pier played "Auld Lang Syne" as the crowd which had gathered in the navy yard cheered lustily. The harbor echoed with the shrieks of marine whistles of nearby craft in the parting tribute.

Overhead a dozen hydro aeroplanes circled.

Ontario Prospectors Claim Radium Discovery

Provincial Assay Office Finds Samples Distinctly Radio Active

Toronto.—The discovery of radium in commercial quantities in Haliburton County, Ont., is claimed by Charles Earl and E. W. Austin, two prospectors who have submitted samples of their find to the provincial assay office. The official finding of the provincial mining authorities is that the samples are "distinctly radio active." A claim of 1,000 acres has been staked by the two prospectors who plan immediate development.

Mr. McMurray urged that Western Canada should have at least one more representative on the railway board. If possible, each western province should have a representative. He also thought Western Canada should have another judge on the supreme court bench.

Mr. McMurray could not see why the Canadian National Railway, with its eastern grade and lower operating cost in the mountains, could not reduce rates to the coast, and compel the C.P.R. to reduce also.

He thought that Western Canada was being made to pay whenever the railways found they needed more money. The roads could not increase rates in Eastern Canada because of water competition.

Mr. McMurray said the legislation looks patched up, and a compromise. It was unfair to British Columbia, and consequently unfair to a large section of the prairie west.

Will Attend Convention

ED. L. STONE

Secretary of the Alberta Division of the C.W.N.A., and Editor of *The Review*, Redcliff, Alta. Mr. Stone will attend the convention of weekly newspapers to be held in Winnipeg on June 24, 25 and 26.

McMillan Leaves For Arctic

Has Started His Ninth Voyage Into Frozen North

Boston.—The Arctic expedition of Lieut. Commander Donald B. MacMillan sailed from the navy yard at Charlestown, June 17, for Whistler, Maine, from whence the *Pangnirtung* and the schooner *Bowditch* will sail on MacMillan's ninth voyage into the north.

The big guns on the navy craft anchored in the bay thundered farewell as the little steamer slipped away on the first leg of the trip beyond the Arctic Circle. A navy band on the pier played "Auld Lang Syne" as the crowd which had gathered in the navy yard cheered lustily. The harbor echoed with the shrieks of marine whistles of nearby craft in the parting tribute.

Overhead a dozen hydro aeroplanes circled.

Toronto.—The discovery of radium in commercial quantities in Haliburton County, Ont., is claimed by Charles Earl and E. W. Austin, two prospectors who have submitted samples of their find to the provincial assay office. The official finding of the provincial mining authorities is that the samples are "distinctly radio active." A claim of 1,000 acres has been staked by the two prospectors who plan immediate development.

Mr. McMurray urged that Western Canada should have at least one more representative on the railway board. If possible, each western province should have a representative. He also thought Western Canada should have another judge on the supreme court bench.

Mr. McMurray could not see why the Canadian National Railway, with its eastern grade and lower operating cost in the mountains, could not reduce rates to the coast, and compel the C.P.R. to reduce also.

He thought that Western Canada was being made to pay whenever the railways found they needed more money. The roads could not increase rates in Eastern Canada because of water competition.

Mr. McMurray said the legislation looks patched up, and a compromise. It was unfair to British Columbia, and consequently unfair to a large section of the prairie west.

Would Have Unanimous Consent Of Provinces

Ottawa.—The senate unanimously adopted the following motion by Senator Turner: "It is inexpedient that any change take place in the constitution of Canada, as established by the British North America Act and thereto, as set forth in the speech from the throne, at the opening of the present session of parliament, without the unanimous consent of the provinces affected by such a change, to be expressed by the legislatures of the respective provinces."

Share Geneva Scholarship

Two Students From Saskatchewan University Receive Award

Saskatoon, Sask.—Award of the Geneva scholarship, worth \$550, for attendance at a series of lectures on the League of Nations, and international affairs generally, at Geneva; Switzerland, during July and August, has been announced by Professor Frank H. Underhill, of the University of Saskatchewan.

It has been decided to split the scholarship in two, giving \$275 each to E. M. Bunce (Agro) and R. Mahinay (A. C. E. M.).

Both students are of English birth and who happen to be visiting their parents in England at the present time.

The scholarships, of which it is understood one is given to each Canadian university this year, are donated by the Geneva Federation, a students' organization.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., June 25, 1925

Elsewhere in this issue will be found a schedule of teachers' salaries as paid at the present time together with the proposed reductions.

It might be well for the rate-payers of Blairmore to take this schedule and shorten the proposed reduced salaries down to cover the 312 working days in the year.

A teacher, as most people are aware, endeavours to enter some instruction during the summer vacation for the purpose of study in order to retain or to increase their knowledge and thus maintain an efficiency which will be expected of them in the days to follow.

When a teacher is forced to earn sufficient money to maintain a certain standard of living, and is thus deprived of the privilege of proper study, it would certainly tend to lower their efficiency when they resume teaching. Even should the teacher not feel the necessity of going to college or otherwise studying during their enforced absence from school in the summer vacation, is the cost of their living in anyway reduced? Are we to pay our teachers a steady day wage according to the number of days they are allowed to work or shall we pay them a yearly salary that will enable them to average a fair living wage the year round?

Take the proposed pay of the teachers per day, as given in the schedule, and divide it by 312 working days, then ask yourself what a teacher really earns the year round, and how he or she, during the two or so months of vacation can get work that will give them sufficient remuneration to cover the expenses of living during the idle periods. The schedule shows the teacher's salaries for 280 working days only. What about the other 32 days for which they rec'd no pay?

Following is the schedule, showing the rate of pay per day on a basis of 312 working days a year:

Mr. D. M. Curran	\$2200—\$7.24
Mr. H. T. Thompson	1550—4.95
Miss E. M. Fulton	1500—4.77
Miss V. J. Keith	1300—4.15
Miss B. E. Douglas	1250—3.92
Miss C. Marquay	1200—3.82
Miss M. E. Rae	1150—3.67
Miss J. Gally	1150—3.67
Miss F. Gibson	1150—3.67
Miss W. Williams	1100—3.53
Miss W. F. Palmer	1100—3.53
Miss J. Nicoll	1100—3.53
Mr. J. H. Bond	1100—3.53

RATEPAYER'S MEETING SATURDAY NIGHT

At the request of resident ratepayers, in accordance with Section 125 of the School Act, a meeting of ratepayers of Blairmore School District No. 620 is called to take place at the Auditorium on Saturday at 8 p.m., for the purpose of discussing the proposed reduction in teachers' salaries.

No one should be insufficient in this matter, and views should be expressed openly at this meeting rather than in the streets outside or behind the backs of those interested.

Some folks spend most of their time trying to prove that look is against them.

A special room in which women may chat and smoke will be provided on a car to be added by the Chicago, Milwaukee and St. Paul railway to its Olympic express.

At a meeting of Ontario legislators the other day a debate ensued on the subject: "Resolved—that all law and church women are getting more publicity than their importance warrants."

EDMONTON EXHIBITION AND STAMPEDE

"Bigger and Better than ever," declared Manager W. J. Stark, in directing the forthcoming Edmonton Exhibition and Stampede, which will be officially opened by His Excellency, Baron Byng of Vimy, Governor General of Canada, and which will continue until July 12th.

Large increases in the prize money in the livestock and agricultural sections have been made this year; the dairy sections and poultry classes have also secured substantial increases in prize money.

The stampede, which this year is under the direction of "Strawberry Hat" Wall, who has gained an international reputation, being one of the cowboys chosen to attend the Rodeo at Wanless last year. He has also been engaged by the England Bros. Circus in New York right up to the time of coming to Edmonton to manage the stampede.

The management have secured practically all the most famous building horses in Alberta and the directors are confident that the contests, which will be for the World's Championship, in all entries classes of sport, will be the best that have ever been staged in Alberta.

Auto races, horse racing, fireworks, wonderful mechanical exhibits and Federal Government agricultural exhibits will be other features of the exhibition. Last year the horse pulling contest proved so successful that the management have again included this contest in the programme, and entries have been received from all over Alberta.

The educational functions of the exhibition are not being overlooked, and an exceptionally fine section, for which valuable prizes are being offered, comprised of exhibits from local artists will form an outstanding feature of the exhibit in the Arts Building.

A \$75,000 Art Exhibit comprising pictures by all the old Masters, is being brought from New York for display.

GO TO HIGH SCHOOL

The Lethbridge Herald is performing a creditable service to Alberta by urging the school students to go through high school, at least.

Not one per cent of the public school students attend university, but high school is readily available to the great majority.

Time was when the average person considered a young man was wasting his time by staying in school beyond the eighth grade. But few hold that opinion today.

To obtain a fair chance for success in life a boy must have at least a high school education.

Go on to high school boys and girls.

C. J. TOMPKINS, BLAIRMORE

Senator Edward Freeman Land, of North Dakota, U.S.A., died in Baltimore, Md., on June 22nd.

Marshall Joffre, noted French soldier, is reported as being seriously ill and little hope is held out for his recovery.

The editorial life of Gerald Chaplin, world in spectacular misdeeds which earned him a reputation as the country's most distinguished criminal, will be forfeited shortly after midnight tonight, when he will be hanged in a Connecticut prison.

Under the new Drumheller wage agreement, it is understood that the rate of pay is higher than the Lethbridge rate and higher than the Blairmore contract rate. Day wages will be the same as the Blairmore wages, and forty cents higher than Lethbridge day wages.

The Enterprise are putting out some large posters this week, announcing a closing-out sale of all dry goods at the Colman Trading Company, Limited. Mr. Michaelis is discontinuing his dry goods department and will in future carry only groceries, hardware and meat.

COAL SHIPMENTS OFF

WILL TRAIN CANADIAN YOUTHS AT HOME

Confirmation has been received by the Alberta Government of the dispatch from Ottawa published on Thursday to the effect that the Canadian National Railway had seen fit, in view of the pending freight rates investigation, to withdraw its arrangement for the trial shipment of 25,000 tons of Alberta's coal to the Ontario market. The confirmation was received in a telegram from Premier Greenfield to Acting Premier Headley on Thursday. Mr. Headley has asked Mr. Greenfield to send forward the details of Sir Henry Thornton's letter to the Premier setting forth the reasons for the action of his company.

Naturally the announcement was received with surprise and regret by the Alberta Government officials, since it practically sets at naught the three years of effort the government has put forth to bring this trial shipment about. Keen regret was expressed by government members, not only on account of the cancellation of business which would have given work to the idle coal mines in certain districts, but also on account of the many people in Ontario who had been interested in the trial shipment, and who were looking forward to receiving the coal.

Members of the government expressed the view that the test shipment should have been permitted to be made, since it would have established the cost of hauling coal under the conditions prescribed and would thus have been of considerable advantage in the investigation into the general freight rate structure. They therefore regret the action of the railway company in cancelling the arrangements.

The members of the government also feel that there has been no delay earlier in the season due to the indecision of the Ottawa Government as to how the money voted for the trial shipment was to be utilized; the shipment would have been completed some weeks ago, at the test freight rate established, and the question settled one way or another.

Roy Hogarth, who in a fit of despondency on Saturday morning last, made several attempts at suicide by shooting at Coleman, is well known throughout this district. Roy served as bartender in the old days in quite a number of hotels in the Crown Nest Pass. Of late he has been failing in health.

Here and There

The popularity of the Nova Scotia apple is rapidly growing in Europe. 11,103,960 barrels and 3,893 boxes were shipped in 1924-25 to ports in England, Scotland and Germany. Shipments also went to Newfoundland, West Indies, Central Canada and the United States.

Production of sugar beets in Canada during 1923 amounted to 159,200 tons, valued at \$1,922,668, and grown on 17,941 acres, according to the Bureau of Statistics. 6,000 acres have been planted to beets this year in Southern Alberta, due to the establishment of a sugar beet factory.

Milton Sills, the well-known movie actor, with a company of 32 other screen artists, passed through Montreal recently to take scenes in "The Come Back" in which he is featured. The company stopped at Lethbridge, in Northern Quebec. Travelling by motor train was a mother skunk and five kitten skunks which will also figure in the picture.

The 266 passengers on the Canadian Pacific S.S. Empress of France completed their 30,000-mile tour of the world on Saturday, May 23, when the vessel docked at New York. At their last stop, Havana, President Machado of Cuba invited the passengers to attend his official inauguration and to witness the unveiling of a statue to the preceding President.

Another aristocratic rancher recently passed through Montreal on a return visit to the ancestral estates in Transylvania, Hungary. This was Baron Josef Czavossy who, with his brother, Andre, took over a 1,600-acre ranch last March near Cockrane, Alberta, on the Bow River. Incidentally the Baron was a passenger on the Trans-Canada on its first return trip of the season from Vancouver.

The Indian Day Celebration at Blairmore, it is announced, will take place as usual this year on the third Thursday and Friday in July. Preparations are already under way for this event, which is a remarkable exhibition as an Indian show. The Stony Indians arrive in large numbers from their reservation to take part in the ceremonies, which are the 22nd annual celebration of the function.

Edward G. Taylor, one of the best known game fishermen on the continent, is authority for the statement that New Brunswick is losing none of its lure as a fisherman's paradise.

Just back from a trip to the Cains River, N.B., Mr. Taylor said salmon

were steadily increasing in numbers and size in the province. He added he had caught on this trip a salmon 42 inches long and weighing 24 lbs. In the autumn such a fish would likely weigh up to fifty pounds.

The following story is told of Sir William Van Horne, first president of the Canadian Pacific Railway and a Major Lopers, who was in charge of the supplies for men working along the track. Van Horne said: "Look here, Major, I hear your men won't stay with you, they say you starve them." "Taint so, Van." "Well, I'm told you feed 'em on soup made out of water flavored with o'd ham and bacon." "Taint so, Van, I didn't never have no hams." From "Canada's Great Highway," by J. H. E. Secretan.

The Western railways of the United States comprising 67 roads serving Chicago and the West, have petitioned the Inter-State Commerce Commission for permission to advance rates. They state that for the years 1921 to 1924 inclusive, the average rate of return on capital was 3.8 per cent., which they claim is so small as to render it impossible for them to secure working capital for the construction and maintenance of the roads. They ask for rates that would give them a net return of 5% per cent. They are generally admitted in what railroads should have.

ADVERTISING PAYS

Once again we have testimony as to the value of advertising. On Wednesday morning of last week a lady picked up a gold watch in West Blairmore. Desirous of finding the owner, she left the watch at The Enterprise office. Immediately we had an ad set up, and exactly fourteen hours before going to press the owner called at our office, proved the property, paid for the ad and left with us a liberal award for the lady.

And another new law has been manufactured in Alberta. This time it is required that barbers wash their hand and face once in a while, that there shall be a separate or individual towel for every patient, and the head rest must be covered with material that cannot be set in a flame when the patient becomes annoyed by the barber's eloquence.

ALL ROADS TO GOD

With the exception of a few thousand who did not care to break the ties that bound them to the old churches, the Presbyterians, Congregationalists and Methodists of Canada are now united in one church.

All roads that lead to God are good. And perhaps to transform three of these roads into one broader and finer avenue of salvation will remove some of the perplexity and some confusion from the way.

The chief significance of church union is that it marks a new tendency to subordinate dogma to the more universal phase of Christianity.

The words of Jesus presented no dogmatic difficulties to the Christians of early days. They were plain words then, simple and direct.

But for two thousand years, man has so philosophized about Christianity that he has confused it. He

has divided the way of the Cross into a thousand paths that differ from each other in the disputatious mind of man himself.

Mankind has tried to ride to heaven on the backs of a million theological hobby horses. And, somehow or other, these hobby horses have become mixed up in our mind with God Himself.

To worship dogma or creed is just as idolatrous as to set up images to Baal.—Vancouver Sun.

It has been suggested that one of the reasons for the School Board's action in cutting teachers' salaries is because some of the members of the staff have been buying meals at Chinese restaurants instead of paying first class prices at an expensive hotel. It's a great pity that an organization such as the school board cannot so dictate to members of other professions or walks of life.

CHAMPION

John MacPherson, Champion bagpiper of the world who retired in 1924. Mr. MacPherson, who has been visiting Canada, is returning home on the Anchor-Donaldson Liner to Athens, which left Montreal last Friday morning for Glasgow.

SUPPLEMENTARY CROP REPORT

Further information respecting crop conditions with relation to the activity of cutworms and other pests in the province, received by the Department of Agriculture since the issuance of the periodical crop report last week, indicates that several large areas in the east central portion of the province have suffered rather severely from the operations of the cutworm and wireworm. This information has been made available as a result of a survey just completed on behalf of the department.

In some districts it is indicated that the wheat yield will be less than 40 per cent normal, and it has been necessary in these districts to re-seed with other crops, thus reducing the general acreage in wheat. Districts in the extreme south and southeastern part of the province have also been affected by the worms.

The fact that large areas in these portions of the province have suffered from the pests, and the fact also that considerable wheat-growing area in the southeastern district has been abandoned by farmers removed to other areas, makes it evident that the general increase in wheat acreage in the province is much smaller than would ordinarily have been the case.

Here and There

The entire Province of Prince Edward Island and adjacent islands have been leased for oil well drilling to Henry L. Doherty & Company, according to an announcement by the concern. The lease has been taken on option.

Indications are that 1925 will be one of the best tourist seasons ever experienced by Montreal. It is estimated that 750,000 people from all over the continent visited Montreal last year, while this year the number is placed at a million.

It is understood that a contract has been let for the laying of a submarine cable from Vancouver, British Columbia, to San Pedro Islands, Pacific Cable Board. This is part of the "All-red" cable and wireless route which is being established between British possessions the world over.

In order to facilitate the work of the air force patrol radio stations are being erected at the Pas, Norway House, Victoria Beach, and Fort Osborne Barracks, Winnipeg. The stations will be completed shortly and will have, it is stated, a radius of communication all over Canada.

"Judging from the amount of sound heard, British Columbia is launching an era of construction development which augurs well for her future prosperity," comments Grant Hall, Vice-President of the Canadian Pacific Railway, recently spent ten days on the Pacific Coast.

"So long as the Canadian Pacific Railway has a dollar left in its treasury, it will fight for the ideals, uphold the faith and maintain the precious heritage of confederation," said E. W. Beatty, Chairman and President of the Canadian Pacific Railway, when addressing the Canadian Manufacturers' Association at their annual convention held at Hamilton recently.

Eleven hundred pounds of speckled trout, gray trout and pike were the trophies taken back to New York recently by seven members of the Cawnpawaga Hunting and Fishing Club, private preserves near Montreal, after a two-week stay on the fishing grounds. The catch included a 19-lb. gray trout and the average weight worked out at around eight pounds.

Frank W. Ashby, secretary of the Australian Manufacturers' Association, visiting here recently, said the Canadians were the back door to the North Pole. People in the Antipodes think that Herschell Island and Baffin's Bay are linked up municipally with Montreal and Winnipeg, he said. He was surprised to find the Dominion had a delightful climate and cities more modern than those in Australia.

What is stated to be the biggest log jam in sixty years recently occurred on the Montreal River in a gorge through which the river flows into Lake Temiskaming. 300,000 logs were piled up to a height of 80 feet, with a width of 250 yards, blocking the river for six miles down to the point where the jam took place. An army of 100 men, working night and day for three days, at last succeeded in breaking the jam with dynamite.

A three-week tour of Canada by teachers and their friends, under the auspices of Dean S. Laird, of Macdonald College, will leave Toronto July 20 on the Canadian Pacific Railway. The party will travel by train to Vancouver and Victoria, and will travel by way of Southern British Columbia and the interior of the Prairie Provinces and by boat from Fort William east. Stops will be made at all the principal points of interest.

Following the opening visit by Their Majesties King George and Queen Mary to the Wembley Exhibition, the Duke and Duchess of York also went over the grounds. Their Majesties were especially delighted with Treasure Island, the Paradise of children, and travelled over the miniature Canadian Pacific train that runs around the Island, passing en route the replica of Banff Station and the reproduction of the Canadian Rockies.

Canada will be well represented at the New Zealand and South Seas International Exhibition to be held at Dunedin between November, 1925 and April, 1926. Both the Dominion Government and the Canadian Pacific Railway have announced their intention to send well-appointed exhibits to the Exposition. It is probable that the provincial governments and many Canadian manufacturers will follow suit.

SENATE MAKES CHANGES IN HOME BANK BILL

OTTAWA, June 20.—The Home Bank bill, as it received third reading in the senate last night, widely differs from the measure passed by the house of commons, in fact, during senate discussion, it was turned a new bill.

1. The total amount of reimbursement is reduced from \$5,450,000 to \$3,000,000.

2. Deposits not exceeding \$500 are to be reimbursed outright to the extent of 35 per cent of the claim without investigation by the commissioners.

3. Claims for reimbursement on deposits of more than \$500 will be heard by the president of the exchequer court, who, as commissioner, will make awards, not exceeding 35 per cent of the deposit, in cases where the "special need" is proven.

4. The bill denies any moral responsibility on the part of the government.

5. The following are excluded entirely from the benefits of the bill: Directors of the Home Bank, senators and members of the house of commons, the government of any province, city, town, county, municipality, parish school board educational institution, or other similar corporation or institution, any corporation, association, society, partnership, club, religious or mutual benefit society, voluntary or church corporation, labor association or similar organization or association.

6. Any creditor failing to take advantage of the act within twelve months of its passing will be barred from receiving any benefit under it.

7. The minister of finance must annually submit to parliament within 14 days of the opening of the session, a detailed statement showing the names of all persons who have received aid under the act, and the amount.

By the above the Blairmore School District will stand loser to the extent of ten thousand dollars.

OTTAWA, June 19.—G. T. Clark, liquidator of the Home Bank, in giving evidence before the senate banking committee this morning, said that at the time the bank closed here were 47,150 depositors with deposits under \$500 and there were 2037 depositors with accounts between \$500 and \$1000. Depositors numbering 39,048 had accounts between \$1000 and \$5000. There were 277 depositors with accounts between \$5000 and \$25,000 and 21 persons with accounts of over \$25,000.

When asked for a suggestion, Mr. Clarkson put forward a proposal that "aims up to \$2000—which number four thousand—be settled in full, then eliminate corporations and how the balance of the losers to put affidavits to the effect that they had been left destitute and let a special commission deal with such cases."

Senator Beque presented to the committee a draft of a proposed bill which would create a commissioner—the president of the exchequer court of Canada—who would deal with special cases of need and require affidavits from other claimants.

A second proposal which met with approval from several senators would provide for the payment of 35 per cent on deposits up to \$3000 and on

TO KEEP CARS UP-TO-DATE

Announcement was made recently by the Studebaker Corporation of Canada, Limited, of discontinuing the custom of presenting a new line of automobiles each year.

Instead of bringing the Studebaker car dramatically up-to-date once in twelve months, this company proposes to keep them up-to-date all the time, adding improvements and refinements from time to time as the merit of such betterments is proved to the satisfaction of Studebaker's engineering department, which the Corporation point out, is maintained at a cost of half a million dollars annually.

Studebaker believes that this policy benefits present Studebaker owners. It is also the belief of this concern that the policy of no "yearly" models enables purchasers of new cars to obtain models that are always modern without the danger of their new cars becoming obsolete.

The dramatic success of the present line of Studebaker cars is one reason for this important change. During the first five months of 1925, Studebaker dealers delivered 40 per cent more cars to buyers than during the same period in 1924. On May 31, the end of the period referred to, Studebaker dealers had only half as many cars in stock as on the same date last year.

Despite the fact that Studebaker factories in South Bend, Detroit and Walkerville, Ontario, are operating at capacity, orders for Studebaker cars are far in excess of production.

DON'T BE THE OTHER FOOL

On a road at the foot of the Rockies is a sign that reads: "Danger, sharp curve. You might meet a fool." Such a sign is calculated to make a driver sit up and take notice. The latter sees at almost every sharp curve a notice to proceed with caution, or to blow his horn, and comes to be little impressed by them. He has confidence in his ability to avoid running into another car. But if there is a fool in the other car, the efforts of the most skillful driver to escape may be futile. There would be fewer automobile mishaps if every driver would bear constantly in mind the possibility that there may be a fool ahead, not only on the sharp curves but on the stretches of straight road. It is unwise to assume that each car on the highway is in charge of an experienced driver who knows traffic rules and will obey them. You may think that inasmuch as you are keeping on your side of the road there is no danger in running your car at a high rate of speed. But you might meet a fool who will not stick to his side of the road.—Ex.

all larger accounts pay the flat rate of 35 per cent of \$3000.

A sub-committee was appointed to re-draft legislation, the sub-committee presenting a new bill to the senate this afternoon.

The action regarding the double liability of Home Bank shareholders, which was to have proceeded this morning before Charles Garrow, K. C., master of the Supreme Court, was adjourned until September 15.

JULY ROD AND GUN

IS IT A FEAR-NEUROST?

Bright stories and articles appropriate to the summer months feature in the July number of Rod and Gun in Canada, a typically seasonal story being the first one in the issue, "From Fort Francis to Windigo," by M. Martin McKey, which is an interesting account of a canoe trip in the Rainy River district. Fishing is a prominent pastime of the season, and for the lover of the angle, there is a heap of good reading material in the regular "Fishing Notes" by Robert Page Lincoln and a Dissertation on Angling of great merit by D. King Hazen.

Among the stories is one from the well known pen of H. Mortimer Batten, a nature story called "The No-mads of Aurora Lake." The regular departments by Bonnydale Dale, F. V. Williams, Martin Hunter, J. W. Winsor and Guns and Ammunition by C. S. Lands show their usual high standard. Outdoor Talk contains many useful wrinkles for the camper, and the Kennel Department is a full and comprehensive one.

Published monthly by W. J. Taylor Limited, Woodstock, Ontario.

ON THE MAIL ORDER BASIS

In a certain western town a man went into a store and asked the price of an article he wanted. It was \$3.25, the dealer said.

"Gee!" said the man, "I can get that from the R. Seaton Company for \$2.82."

"That's about what it costs me," said the dealer, "but I'll sell it to you on the same terms as the mail order people."

"All right," said the customer. "You can send it along and charge it to my account."

"Not on your life," replied the dealer. "You can't have it charged at the mail order house. Park over."

The customer handed over the cash.

"Now, 3 cents for postage and 5 cents for a money order."

The customer kept to his agreement and paid the additional 3 cents.

"Now, 35 cents express charges, please."

"Well, I'll be —" said the customer, laying down another 35 cents. "Now hand it over and I'll take it home myself before you think up anything else."

"Hand it over? Nothing doing. You'll have to wait a week, the time it would take you to get it from Winnipeg." And he put the money in the till and the parcel back on the shelf.

"That makes \$3.25, exactly my original price; and it takes you a week longer to get it."

A bill to renew the charter of the Calgary-Fernie railway for another two years has passed the railway committee of the Ottawa house.

When Johnnie was asked by his teacher where the capital of the United States was, he replied: "In the Wall Street bank." He wasn't so far out at that.

ACTING A.T.A. AGENT

Blairmore, June 21, 1925.
Editor Lethbridge Herald:

Sir—I notice in your issue of today, my name is subscribed to an advertisement from the Alberta Teachers' Alliance, Incorporated.

The authority for the insertion of such an advertisement is vested in the provincial executive only. The appearance of my name at the foot of the advertisement is tantamount to a usurpation of that authority.

I may add that I was acting simply as the agent of my superior, Mr. J. W. Burnett, when I advised your correspondent at Blairmore that we wished to have the advertisement inserted.

Yours very truly,
D. M. J. CONWAY.

COWLEY HAPPENINGS

A heavy shower fell in this vicinity on Sunday evening.

Arthur Crawford accompanied his brother Clifford to Detroit.

Mr. and Mrs. Roland Easterbrook left this week for Calgary.

The dance which was held on Wednesday night was poorly attended.

Mrs. Heatherington has gone to her old home in Ontario for an extended visit.

Mr. and Mrs. M. A. Murphy and children were visitors to Macleod on Saturday.

At present writing several of the pupils are writing on the government exams.

Arthur Brockwell and M. A. Murphy, who were business visitors to Blairmore on Wednesday.

Mr. and Mrs. James Leigh and little daughter Verduin have returned from a Calgary visit.

Mrs. C. E. Bundy and children have gone to Nova Scotia for an extended visit with relatives and friends.

A number of the local citizens attended the sports which was held at Landbrook on Saturday. They report a good time.

The nine-hole golf course on the town sports field is near completion. We hope in the course of a few days to be playing.

A very interesting evening was spent at the home of Mrs. A. Brockwell on Thursday, when the Women's Institute held their monthly meeting. A course of nursing was discussed, of which we will hear more later. The delegate to the convention of the W.I. also gave her report.

The Sunday School picnic of the Union church will be held on the baseball grounds on Tuesday next, June 30th, commencing at 2 o'clock. Races, football, baseball and other games will be played. Supper served on the grounds for the Sunday School children. Fathers and mothers are invited.

TEACHERS SALARIES RAISED \$1.00 PER DAY

SAN FRANCISCO, June 17.—The salary of the teachers of San Francisco has been increased \$360 per year.

The city council has approved the raise of \$1.00 per day in the salaries of the public school teachers.

This increase is made possible by an addition of \$900,000 to the budget of public education.

The new scale of salary will go in force with the new fiscal year, which will start on July 1st, 1925, and will benefit some 2400 teachers of the city public schools.

The minimum salary of the elementary schools will be \$1400 and the maximum \$2400, the maximum can only be obtained after twelve years of teaching.

The minimum of the Junior High School is \$1600 and the maximum is \$2600.

High Schools minimum \$1800 and maximum \$2800. Taken from the Voce del Popolo, Italian Daily paper, San Francisco.

Senator LaFollette, the stormy petrel of United States politics, passed away at Washington on Thursday last, at the age of seventy years.

Word has been received that the American Agricultural Editors Association, including representatives of one hundred of the largest farm journals in the United States, will visit Alberta in September.

THURSDAY, JUNE 25, 1925.

ENDORSE POSITION TAKEN BY STAFF OF BLAIRMORE SCHOOL

The firm stand of the Blairmore teachers in the present deadlock with the school board has met with endorsement by sister locals of the A.T.A., Coleman, Bellevue, Pincher Creek and Hillcrest, as the following letters prove:

Coleman—

First—Resolved that the Coleman staff extend to their fellow teachers at Blairmore an expression of our admiration for the stand they have made in behalf of their fellow teachers in the province.

Second—A message of encouragement to continue in their present attitude of refusal to compromise on the question of recognition of the Alberta Teachers' Alliance and of reduction of salaries.

Bellevue—

Mr. Conway,

President of the Crows Nest Pass Local:

I have been instructed by a unanimous vote of the members of the Bellevue local of the Alberta Teachers' Alliance to send you the following message:—That we are sorry that any such condition has arisen between the Blairmore School Board and the staff, but considering the attitude taken by the board, we do not see how you could have taken any other course than you have.

It is a credit to the whole staff that you are ready to stick together in the cause of right.

It is to be hoped that the day will soon come when all the teachers in the whole Dominion will be ready to show that they are made of the same sort of material.

We, the teachers of the Bellevue sub-district of the Alberta Teachers' Alliance, wish to congratulate the Blairmore teachers on their solidarity. We feel that you must win in the end.

C. V. ASSELSTINE, Secretary of Bellevue sub-local of the Crows Nest Pass Local of the Alberta Teachers' Alliance.

We, the teachers of the Hillcrest sub-local of the Crows Nest Pass Local of the Alberta Teachers' Alliance, wish to express our appreciation of the stand you have taken in support of our rights, to recognition as an organization representing the teachers of our province.

We feel confident that your attitude towards recognition, efficiency and proper remuneration will prove mutually beneficial to all members of the teaching profession.

Pincher Creek—

D. J. Conaway,
Crows Nest Pass Local, A.T.A.,
Blairmore, Alta.

Dear Mr. Conway:

Please convey to the members of the teaching staff the sincere admiration and good wishes of the Pincher Creek Local for the undivided stand they have made against an attempt to cut salaries and refuse recognition of our alliance.

That your battle is not merely a local problem we all know, and your stand will do much to uphold the cause and interests of the Teachers' Alliance all over the province of Alberta.

I wish to assure you of the sincere good wishes of the Pincher Creek Local.

Yours fraternally,
J. S. STEVENSON,
President.

Primitive Methodists in England decided in favor of union with other Methodist bodies by a vote of 184 to 18.

The Legislative Council of Yukon Territory has amended the ordinance of that Territory which regulates the practice of medicine and the like by adding the following clause: "Nothing in this Ordinance contained shall apply to or affect . . . persons treating human ailments by prayer or spiritual means as an enjoyment or exercise of religious freedom." Thus, Yukon joins Saskatchewan, Ontario, Nova Scotia, and most of the United States in explicitly recognizing the practice of religious healing.

YOU GET WHAT YOU PAY FOR

You get what you pay for in this world, whether it be an automobile, a house, a pair of shoes or an education.

The shrewd shopper may find an occasional bargain in shoes. He may find a \$10,000 house for \$8000. He may find a used car "as good as new" at half the regular price.

But there are no bargain sales of education. You get what you pay for when you send your child to school.

On Saturday, qualified voters of Portland school district No. 1 will vote on a \$345,000 special tax levy. If this money is voted, the school board will be able to adjust the salary schedule of Portland teachers so that it will be more nearly on a par with the schedules existing in other cities of like size.

Denver, smaller than Portland, pays grade teachers \$3080 a year. Des Moines pays \$3000 a year. Minneapolis \$2500, St. Joseph \$2500, Spokane \$2150, Berkley \$2400, Seattle \$2100.

I have before me a list of 27 American cities. None is much larger than Portland. All are comparable to Portland. Most are smaller than Portland.

Tacoma is next to the foot of the list in the matter of teachers' salaries. Tacoma pays \$1860.

Portland is at the foot of the list. Portland pays a maximum of \$1890.

You get what you pay for in this world.

We have with us the "suitcase teacher."

She has a regular job at, say, Minneapolis. She gets a year's leave of absence, packs her suitcase and comes west to see the country. She's an economic disturber, but she doesn't know it.

She lands a job with the Portland public schools. She doesn't care what the salary is. It's a vacation, anyway. She gladly accepts a salary of \$1800.

She works a year; then packs the suitcase and returns to Minneapolis. The old job is hers. "Well," she tells the school board, "I enjoyed my vacation, but it seems good to be home again!"

Portland teachers must compete with the "suitcase teacher."

The nucleus of the Portland teaching corps is splendid. The members of it have lived here so long and have such property, family and social ties as to make it impossible for them to emulate the example of the "suitcase teacher."

But there are teachers in our schools who are "not so good." They are the teachers who have been rejected by the school boards of other coast cities, which pay better salaries than we pay.

And you get what you pay for.

A Portland laborer or concrete mixer gets \$5.50 a day. A Portland grade teacher gets a maximum of \$6 a day. A Portland plasterer gets \$11 a day. The teacher gets a little more than the laborer and a little more than half as much as the plasterer.

The News believes the levy should carry. The News hopes it will carry and that, with the money, the board of education will drive shrewd bargains and get good teachers—Portland News.

WORLD HAPPENINGS BRIEFLY TOLD

Robert E. A. Graham, one of Canada's foremost livestock men and one of the best judges on the continent, died in Toronto June 14.

Henry Roy Davis, of Milner, B.C., fourth year medical student at McGill University, will represent Canadian universities at Wembley during the month of August.

Prof. Basil Williams, of McGill University, is to succeed Sir Richard Lodge, who is retiring, as head of the department of history at the University of Edinburgh.

Persia has withdrawn from the arms conference because of the conference decision that Persian ships in the Gulf of Persia could be searched if suspected of engaging in forbidden arms traffic.

The tomb of Virgil at Naples has been purchased by the Italian Government and a large sum will be expended in restoring the ancient Latin poet's resting place as part of this year's celebration in his honor.

Mme. Marus Treyley, wife of a Russian colonel, has been sentenced to death for her activities as head of a notorious group of anti-Soviet bandits who terrorized the whole of the Ukraine for more than two years.

An extensive programme of dental health, embracing examination and dental service to immigrants, was outlined at the annual meeting of the Canadian dental hygiene council held at Toronto.

"Trade between Canada and India is developing steadily with an increasing market offering for timber and machinery," said H. A. Chisholm, Canadian trade commissioner at Calcutta, who arrived in Victoria recently on board the liner Empress of Russia.

The Jerusalem correspondent of the London Daily Mail says the shrine of the Holy Sepulchre has been discovered to be in a highly dangerous condition; the pillars and parts of the marble facings of the outer walls being badly.

Dr. Mack Eastman, professor of history at the University of British Columbia, will leave in a few days for Geneva, where he will be in the employ of the department of labor of the League of Nations. He has been granted a year's leave of absence from the university.

Germany will be a member of the League of Nations by the autumn, and at the next session of the United States in December decision will be reached that will make the United States a member of the world court. Sir George Foster expressed this opinion in an address at Montreal on the League of Nations.

Many Compliments For Empire Exhibition

Wembley Show This Year Could Not Be Improved On

The finished and much improved appearance of the British Empire Exhibition this year has been generally recognized and has formed the subject of complimentary comment since the opening of the big show at Wembley. The beautiful gardens, the wonderful illuminations, the catering for the big crowd, and the entire layout of the exhibition leave little, if anything, that could be improved upon.

Unfortunately, through the misreading of a Canadian Press cable recently in connection with a comparison which was made between the Wembley and the Empire exhibition, the Paris it was made to appear that the former was not in readiness at the opening, whereas the Paris exhibition was. What was intended to be conveyed in the cable was that the Wembley show had emerged with complete credit with its readiness for receiving visitors from the opening day onward.

Canada and New Zealand
Some idea of Canada's trade with New Zealand can be gathered from the fact that exports from Canada during the month of February, 1925, amounted to \$1,622,577, of which amount \$428,550 was made up of agricultural and vegetable products, while wood, wood products and paper amounted to \$172,343. The greatest amount was furnished by iron and iron products, exports of which, in the month of February amounted to \$872,743.

Animals Being Asociinated
Ninety sacred baboons from Abyssinia have reached the London Zoo, and, until acclimated, will be put into a cage supplied with radiant heat and light. Sheltered ledges outside the cage will be electrically heated by rays of artificial sunbeams.

Why blame the hotel parson for kicking when he has to pay good dollars for poor quarters?

Believe In Success Of Non-Stop Flight

French Aviators Preparing For Paris-New York Trip

"Our chances of success are five in 100, and that is sufficient," said Paul Tarascon, war-maimed aviator, when questioned about the proposed Paris-New York non-stop flight which he and another war ace, Francis Coli, will attempt this summer.

"The big jump can be made. Given a smooth working motor and a sound navigating plane with a lifting capacity sufficient to take off with enough fuel to stay aloft for 30 hours, the Paris-New York flight is no more difficult than several feats performed in recent years," Coli opinioned. Expert mechanics are now busy tuning up the motor, while plane builders are putting the finishing touches to the machine. The latter part of July has been fixed as the probable time.

Five thousand litres of fuel and oil which the plane must carry at the start present a problem. How to store this liquid without interfering with the stability of the plane is causing the experts much trouble.

England, Ireland, Newfoundland, and Nova Scotia is the proposed itinerary.

Sweden Developing Electrical Power

Intends In Time To Electricity All Of Its Railroads

After having ruled supreme for 100 years, steam is being routed in Sweden as motive power in transportation both on land and sea. The most recently published statistics show that of all the boats now under construction in Swedish shipyards, more than 80 per cent are to be propelled by motors, and on the railroads the old-fashioned locomotives are being discarded in favor of either electrical engines or motor trucks. Having no coal and plenty of water power, Sweden intends in time to electrify all its railroads.

In the meantime motor driven trucks are rapidly displacing the steam engines on shorter hauls. The Helsingfors-Nasjö line, for instance, has converted an ordinary automobile into a railroad truck, capable of hauling three and a half tons at 25 miles an hour. Railroad trucks with Diesel motors, which burn crude oil, are still more economical, and the Dessa Company of Cestras has completed 25 of this type and has ten more under construction.

To Rebuild Minaki Inn

Guests Will Be Accommodated at Lodge and Resort Is Open As Usual

Immediate steps will be taken to rebuild the Minaki Inn, burned to the ground recently. Loss through fire to buildings and equipment has been estimated at \$150,000, fully covered by insurance.

The manager of the Canadian National Railways announced that preparations have been made to accommodate guests at the Lodge in Minaki, which was undamaged by fire. New equipment to be installed in this building under the direction of the manager, H. T. Knight, will permit the opening for the reception of guests on June 27. The Lodge was originally intended for the housing of winter guests, and is one of the most substantial buildings at Minaki.

The fire destroyed only the main building and contents. The dance pavilion, boat house, swimming accommodations and ice house were untouched by flames and will be operated as in past years. The new golf course was in no way damaged by the fire.

Winnipeg Summer Fair

Educational Festivities Will Occupy An Important Place

Educational features will have an important place in the Winnipeg summer fair, as more than three hundred feet of space have been set aside, and will be devoted to special demonstrations and instructive subjects, dealing with vital subjects affecting the city, home and nation.

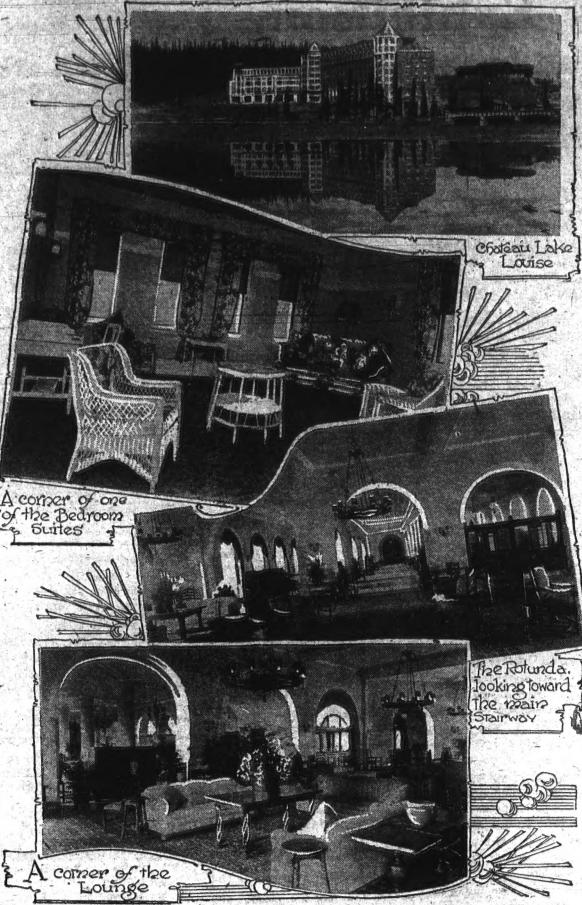

Among the set pieces to be seen during the two weeks will be those dealing with early trading with the Indian; the granting of the royal charter to King Charles II, in 1670; Prince Rupert; the first governor of the Hudson's Bay Company; Sir Robert Mollesworth Kindersley, G.M.E., the present governor; the purchasing of the Red River land from the Indians; King George V; Queen Mary; Lord Byng; Lord Selkirk; Sir Arthur Currie; Sir James Alcock; Premier John Bracken; Mayor R. H. Webb; City Clerk Chisholm; Misses; provincial and city government; coal-tar firms of Canada; historical events; and other famous persons.

The cage will be electrically heated by rays of artificial sunbeams.

Why blame the hotel parson for kicking when he has to pay good dollars for poor quarters?

There is no future in being a Babylon statesman.

THE NEW CHATEAU LAKE LOUISE

Sauce For The Goose

More Co-operation and a Better Understanding Needed Between the East and the West

At the dinner given by the Quebec division of the Canadian Manufacturers' Association, an attempt was made to have all the provinces represented on the bill of fare. Saskatchewan was represented by "Salad" and Manitoba by "Sauce," while Alberta was recognized by serving "Assorted Cakes."

These are all very light refreshments to represent the north, sons of toll of the plains, but what else could one expect from such an organization? They represent very well the amount of consideration Western Canada has given to all their bands. A little Saskatchewan salad, over which is poured some Manitoba sauce, with a few Alberta assorted cakes as a little may do as a filler, but as substantial fare will not go far in satisfying a young, strong robust man.

Now, these prairie provinces are pushing up to the Canadian manufacturers something far more substantial upon which they are feeding sumptuously every day. We in the west are but human like the rest of folk. It gives us pleasure to help another; it also affords us pleasure when we receive, with good grace, from others. Western Canada is certainly doing its part to place our country on the map. Its products are known world-wide and we are today contributing considerably to the wealth of Canada. We feel, therefore, that there is a little more than salad, sauce, or assorted cakes coming to us when our wishes and needs are being discussed by our eastern friends.

If you give a person too much of any one food, it becomes nauseating and a variety must be made if full development is to be attained. The west feels that a little change in diet would be very beneficial if full development is to be attained. The west feels that a little change in diet would be very beneficial if full development is soon reflected by prosperity in the east. It should not be difficult to have a change brought about. This can be done by a little more sympathetic co-operation between the middle east and the west. Each needs the other if both are to develop as we hope, but a little less selfishness will have to be shown by the highly-protected east, and a little more appreciation of what the west means to the prosperity and greatness of Canada. Moose Jaw Times.

Pride Cattle Shipped

Pride Cattle Is Made Of Pride Cattle From Alberta

The first consignment of export cattle for 1925 left Montreal recently, consisting of two hundred and seven head shipped by the Livestock Producers' Association of Alberta, and averaging around twelve hundred pounds in weight at three years of age. One hundred and twenty-five of the number will have offices in this building to look after the health of its guests; and a special dining room has been built for the maid-servants, nurses and younger children of the guests.

Chateau Lake Louise is now said to be the largest and most modern equipped chateau in the world.

cluding three managers, had to be on hand a week before its opening. These employees have a building to themselves equipped with rooms with bath, hot and cold running water, a rotunda and a ballroom.

The new Chateau Lake Louise has 400 rooms with bath, all outside rooms, 210 of them with southern exposure facing the lake.

Besides telegraph and cable offices in the rotunda, each bedroom contains a phone which can be connected with long distance.

A resident doctor and travel nurse will have offices in this building to look after the health of its guests; and a special dining room has been built for the maid-servants, nurses and younger children of the guests.

Chateau Lake Louise is now said to be the largest and most modern equipped chateau in the world.

World Scarcity In Wheat

Factor That Will Likely Hold Prices Up For Some Time

Blue ruin gentlemen, do not like to see the farmers happy, tell them that high wheat prices cannot last because these prices are supported solely by speculation.

They say that the bottom may drop out of the wheat market any day that some gambling ring wants it to drop.

The farmers should not worry too much about it. There is one factor that will probably hold wheat prices up for years.

Normally, Russia produces one billion bushels of wheat. For the past few years Russian wheat has not been a factor in world markets. Nor will it be a factor for years to come—Van couver Sun.

Best Pastime For Hogs

Sudan grass had a slight superiority over Marrowfat kale in a test made with Berkshires and Yorkshire hogs at the Central Experimental Farm, Ottawa, in 1922. The

little difference in the actual feeding value of the two pastures, but the Sudan grass was ready earlier than the kale and supplied green feed for a period of nine days longer.

Well Qualified

Prospective Employer—But can you get up in the morning?

Male Applicant—Can I? Why, in my last place, I used to be up and have all the beds made before anyone else was up.

"Do you think, young man, that you could give my daughter all she asks for?"

Liar! Speaker—"If our friend will give me his name instead of his profession, I shall be delighted to make his acquaintance."

The Soft Answer

Persistent Interrupter.—"Liar!"

Speaker—"If our friend will give me his name instead of his profession, I shall be delighted to make his acquaintance."

May Buy Another Farm

South African Farming Has Greatly Interested Prince of Wales

With regard to a report that the Prince of Wales has entertained the idea of returning to South Africa for a shooting holiday, the general impression is that His Royal Highness is not particularly interested in big game and this seems to be borne out by his recent acceptance of a projected visit to a game reserve.

The Prince, however, throughout his tour in South Africa, has shown the deepest possible interest in farming, and South African farmers who have spoken to him think it quite possible that he may buy a farm and encourage horse breeding and the raising of sheep and dairy cattle in this country.

Canada's Fruit Production

Fruit production in Canada during 1924 had a value of \$24,266,431, a decrease from the figures of the previous year, due principally to smaller quantities, according to a bulletin of the federal bureau of statistics. The following are the principal items of production: Apples, \$18,777,607; pears, \$471,924; strawberries, \$1,339,910.

An orderly officer, visiting the mess hall, asked if there were any complaints, and one soldier got up and said, "Yes, sir, taste this."

"Why, it's the best soup I have ever tasted in my army career," replied the officer.

"But," said Tommy, "it's supposed to be tea."

Pleasure In Recreation
People in Peru Town Interested In
New Pastimes

The inhabitants of a small factory town in Peru took to Y.M.C.A. recreation activities with such enthusiasm that many of them refused to interrupt their play to go home for food. Their leisure pastime used to consist mainly of drinking and gambling, but now under the direction of a leader from the Lima Association who visits them once a week, they are discovering new pleasures in cage-ball and other games.

CAPTAIN BLOOD, A Picture story by J. Warren Kerrigan
in the title role, is an adaptation of this thrilling novel.

CHAPTER XXIV.

Cartagena

Having crossed the Isthmus in the teeth of contrary winds, it was not until the early days of April that the French fleet hove in sight of Cartagena, and M. Rivarol summoned a council aboard his flagship to determine the method of assault.

"It is of importance, messieurs," he told them, "that we take the city by surprise, not only before it can put itself into a state of defense; but before it can remove its treasures inland, and if possible, to force sufficient to achieve this to the north of the city to light after dark."

He was highly regarded and especially by his officers, accordingly by Captain Blood. Blood was the only one amongst them who knew exactly what lay ahead. Two years ago he had himself considered a raid upon the place, and he had actually made a survey of it. The Baron's proposal was one to be expected from a commander whose knowledge of Cartagena was only such as might be derived from maps.

Geographically and strategically considered, it is a curious place. It stands almost four-square, screened east and north by hills, and it may be said to face south upon the inner of two harbors by which it is normally approached. The entrance to the outer harbor, which is in reality a lagoon some three miles long, is through a narrow channel at the Boca Chica, or Little Mouth—and defended by a fort. A long strip of densely wooded land to seaward acts here as a natural breakwater, and as the inner harbor is approached, another strip of land thrusts across at right angles from the first, towards the mainland on the east. Just short of this it ceases, leaving a deep but very narrow channel, a veritable gateway, into the secure and sheltered inner harbor. Another fort defends this second passage. East and north of Cartagena lies the mainland, which may be left, out of account. But to the west and northwest this city, so well guarded on every other side, lies directly open to the sea. It stands back beyond a half-mile of beach, and besides this and the stout walls which fortify it, would appear to have no other defense.

It remained for Captain Blood to consider the difficulties which M. Rivarol informed him that the honor of opening the assault in the manner which he described was to be accorded to the buccaneers.

Captain Blood smiled sardonically at the preface of the honor reserved for

his men. It was precisely what he would have expected. For the buccaneers the ducor; for M. de Rivarol the honor, glory and profit of the enterprise.

"It is an honor which I must decline—indeed, quite coldly." Wolverine grunted approval. Harewood and Hercule nodded. "I will leave my men to their fate." And he turned his back to the wall.

"Look you, M. Le Capitaine, since you are afraid to undertake this thing, I will myself undertake it." M. de Rivarol declared. "If I do so, I shall have proved you wrong, and I shall have a word to say to you to-morrow which you may not like. I am being very generous with you, sir. You have leave to go."

It was sheer obstinacy and impetuosity that drove him, and he received the lesson he deserved. Close upon fifty lives were lost in the adventure, together with half-a-dozen boats stored with ammunition and light guns. The Baron went back to his flagship an infuriated, but by no means a wiser man.

A sketch of the scene of the battle follows:

A lucky shot from the buccaneers had found the powder magazine

He was awakened at dawn by the rolling thunder of guns. Emerging upon the poop in nightcap and slippers, he beheld a sight that increased his unreasoning and unreasoning fury. The four buccaneer ships under canvas were half a mile to the north of the remainder of the fleet, and from their flanks flamed and smoked, were belching each time they swung broadside to the great fear that guardedly that narrow entrance. The fort, although returning the fire vigorously and viciously, was suffering badly. Yet for all their maneuvering the buccaneers were not escaping punishment. The starboard gunwale of the Atropos had been hammered into splinters, and a shot had caught her astern in the coach. The Elizabeth was badly battered about the forecastle, and the Arabella's mizzen had been shot away, whilst towards the end of that engagement the Lachesis came reeling out of the fight with a shattered rudder, steering herself by sweeps. There was a terrible explosion; half the fort went up in fragments. A lucky shot from the buccaneers had found the powder magazine.

The load-line mark on ships was originated by Pimlico, an Englishman, to prevent vessels from going to sea overloaded.

plunder was enormous. In the course of four days over a hundred miles laden with gold went out of the city and down to the boats waiting at the beach to convey the treasure aboard the ships.

CHAPTER XXV.

The Honour of M. de Rivarol

During the capitulation and for some time after, Captain Blood and the greater portion of his buccaneers had been at their post on the heights of Nuestra Señora de la Popa, utterly in ignorance of what was taking place. Resentment smoldered among his men for a while, to flame out violently at the end of that week in Cartagena. It was only by undertaking to voice their grievance to the Baron that their captain was able for the moment to pacify them. That done, he went at once in quest of M. de Rivarol.

"M. le Baron, I must speak frankly; and you must suffer it. My men are not ignorant of your conduct. They know whereof when this matter of the spoil is to take place, and when they are to receive the fifth for which their articles provide. The men know that it exceeds the enormous total of forty millions. They insist that the treasure itself be produced and weighed in their presence. I warn you that unless you yield to me, I demand that I just consider and therefore uphold, you may look for trouble; and it would not surprise me if you never leave Cartagena at all, nor convey a single gold piece home to France."

"Am I to understand that you are threatening me?"

"You do not know the ways of buccaneers. If you persist, Cartagena will be drenched in blood, and what ever the outcome the King of France will not have been satisfied."

"It is all true that M. de Rivarol gave a promise at once to make the necessary preparations, and if Captain Blood and his officers would wait upon him on board the Victoria to-morrow morning, the treasure should be produced, weighed in their presence and their fifth share surrendered there and then into their own keeping."

Among the buccaneers that night was hilarity over the sudden abatement of M. de Rivarol's monstrous pride. But when the next day broke over Cartagena, they had the explanation of it. The only ships to be seen in the harbour were the Arabella and the Elizabeth riding at anchor and the Atropos and the Lachesis carried on the beach for repairs of the damage done to her in the bombardment. The French ships were gone.

Blood was reduced to despair. If he followed now, Heaven knew what would happen to the town. Unable to reach a decision, his own men and Harewood's took the matter off his hands, eager to give chase to Rivarol.

(To be continued)

Request Not Unreasonable

Inhabitants on Loneliest Island Ask For Mail Once A Year

Natives of Tristan da Cunha in the South Atlantic, known as the loneliest island in the British Empire, petitioned the government recently to arrange an annual mail boat for them, declaring that if this were brought about they would be perfectly contented; otherwise they threatened to emigrate.

News of the settlement was brought to England by the Rev. H. M. Rogers, who for three years had been a missionary and schoolmaster to the islanders. Mr. Rogers wrote to his mother more than a year ago to return to England, but he was compelled to wait for a ship. He was accompanied by his wife and baby who was born on Tristan da Cunha two years ago. During the family's stay on the island there was but one mail ship.

The load-line mark on ships was originated by Pimlico, an Englishman, to prevent vessels from going to sea overloaded.

RED PIMPLES BITCHED BADLY
Neck and Chest Broken Out. Cuticura Healed.

"My daughter's neck and chest were very badly broken out with red pimples and blisters, and she could hardly move. I suffered with pain until I was no longer any good for my household duties and had to take to my bed. Then I had a fever and a sore throat, and I could not eat. I was unable to take a few hours for a while as rooms were scarce at that time. My baby is 17 months old now and I have to care for him and my husband. The medicine I have recommended the Vegetable Compound to a few people I know and have told them how good it is. I am a widow and I have to look after my son, who is 10 years old, and I certainly would not be without it for those suffering as I have to know what it does. I am still in bed, but I am able to take a few hours for a while as rooms were scarce at that time. My baby is 17 months old now and I have to care for him and my husband. The medicine I have recommended the Vegetable Compound to a few people I know and have told them how good it is. I am a widow and I have to look after my son, who is 10 years old, and I certainly would not be without it for those suffering as I have to know what it does. Local and General Items

Red Deer Elks are staging a mammoth carnival on Tuesday and Wednesday next.

One of our teachers was offered a job the other day as cook on a cook car at \$6 per day.

Mrs. Robert Smallwood, of Corbin, was a visitor with friends here for a few days last week.

Some churches in Manitoba are taking a second vote on the question of church union.

Dr. and Mrs. J. Olivier are rejoicing over the advent of a son and heir on Saturday morning last. Congratulations, again!

Little Olive Young underwent an operation for appendicitis on Thursday morning. Olive is doing as well as can be expected.

Joseph, son of Mr. and Mrs. A. J. Morency, entered the local hospital this afternoon for an operation to remove the appendix.

Some of the young men have so arranged matters that the lights go out while the Saturday night dances are in progress in the Lodge Hall.

Margaret, little daughter of Mr. and Mrs. William Patterson, underwent an operation for appendicitis at the local hospital last week and is doing nicely.

W. J. Bartlett, editor and proprietor of this paper, is this week attending the sixth annual convention of the Canadian Weekly Newspapers' Association, and will return the early part of next week.

Field Marshall Earl Haig will visit Alberta during his tour of Canada in July. It is also expected that Ramsay McDonald and Hon. Arthur Henderson, prominent British labor leaders, may visit the province this year.

Within twenty-four hours following Sunday night's rain, Dad Palmer's macaroni crop grew no less than four inches. Dad say that macaroni stalks and leaves make the most desirable hedges and shades for houses and surroundings.

Quite a number of fans intend to take in the ball games at Fernie on Sunday next, when the Calgary Cubs oppose Fernie in a double header for the Brewery Trophy. The Calgary team are endeavoring to take this trophy back with them which Fernie won last fall.

P. Ubertino is opening up today in a new venture in the store recently occupied by the Christie Grant Company. The store will be known as The Blairstore Variety Store and Bargain Counters. There is a yard goods remanufacture counter, a groceria counter and four counters which will hold articles for sale at 10 cents, 15 cents and 25 cents, as well as boots, shoes and self hardware.

One thing may be said in favor of the School Board's action in spending current monies on school addition erection instead of having ratepayers pass upon a debenture: Architect's fees, advertising and other red tape connected with the sale of \$1100 would have cost the district from three to four hundred dollars. But even at that, the ratepayers should always have a say in financial administration.

A Colemanite fired several shots at his head last week end, but was unable to locate brains.

Golly, how things change! In 1890 there was a sweetie in every port; now there's port in every sweetie.

For throwing a partly nude "chicken" into the river, a local Chinaman was last week fined fifteen dollars and costs.

Friday last, June 19th, was observed as a holiday at Hillcrest, in commemoration of the big mine disaster two years ago.

Who is the local man who is so absent-minded that he poured the molasses down his back and scratches his pancakes.

Misses Douglas and Rae, of the local teaching staff, will attend summer school at Edmonton University during the summer holidays.

Raoul Amundsen, after twenty-four days silence in the northern regions, has returned to civilization. He didn't bring the pole back with him.

The road around Crows' Nest Lake is now in excellent shape. Considerable grading has also been done between Sentinel and Coleman and when completed this road will be first class.

On account of next Wednesday being July 1st and a statutory holiday, the regular meeting of Blairstore, Lodge No. 15, B.P.O.E., is postponed until Thursday evening, July 2nd. All members please take notice.

The local school closes for the summer holidays on Tuesday next. Owing to the problems between the board and teachers being very much unsettled, most of the members of the staff have had to cancel their summer vacation plans.

In an interesting game played here on Tuesday evening the local baseball team trimmed Coleman to the tune of 9 to 1. Johnny Dicken, the local's moundsman, almost registered a shut-out, Coleman scoring their lone tally in the ninth inning.

Arrangements for the big carnival to be put on by the local Elks on July 24th and 25th are well under way. Tickets are now on sale for the hydron new, fully equipped, Chevrolet car to be given away on the night of July 25th. Proceeds of this carnival are to be devoted to benevolent purposes.

Outside teachers making applications for positions on the Blairstore teaching staff should be prepared to submit all plans and patterns for clothing, all bills for board (including the regular daily menus) and all plans for money debts or expenditure to the Blairstore Board of School Trustees for their approval or endorsement, that they may live long and prosper in the new district of their adoption.

The Pincher Creek Anglers' Association received word last week that the Department of Marine and Fisheries were forwarding a shipment of rainbow trout fry for stocking the streams in that neighborhood. 85,000 fry will be distributed as follows: 10,000 in Beaver Creek, 10,000 in Yarrow Creek, 15,000 in Mill Creek, 15,000 in Pincher Creek 10,000 in Carpenter Creek and 25,000 in Race Horse Creek. In addition 70,000 salmon trout fry will be planted in Winton Lakes.

Service Garage and Repair Shop

in R. Smallwood's Old Stand, across the Track from the Cosmopolitan Hotel

MURPHY and SHEARER - PROPS.

Drusheller Elks entertained 2000 children to a picnic one day last week.

The proceeds of the Red Deer Elks' carnival will go towards the cost of erection of a covered skating rink.

For a few weeks newspapers tried to drop the cross-word puzzle, but the L.W.D.s demanded a return of them.

Clifford, son of Mr. and Mrs. W. H. Chappell, underwent an operation for appendicitis at the local hospital last week.

Postmaster Wilson, of Frank, leaves today for Perth, Ontario, where he will attend the Perth Old Boys' reunion.

A local business man looked over his accounts this week and discovered that most of his money was being driven around town by other people.

A tea and sale of home cooking will be held at the home of Mrs. Robert Gray, on Saturday, June 27th, from 3 to 6, under the auspices of the Pythian Sisters. Come and bring your friends. [J11-8]

A football game between Hillcrest and Corbin will be played on Hillcrest grounds, on Saturday evening at 6 o'clock. This is a Cooper cup game and league fixture and should prove greatly interesting to the fans.

Mr. and Mrs. Leitch stopped off at the Greenhill hotel on Saturday last, while enroute by motor from Los Angeles, California, to Portage la Prairie, Manitoba. They were enjoying the fullest of the beautiful scenery of this district.

A pile of loose rock tumbled from the face of Turbie Mountain on Sunday morning last. Considerable of the larger rock reached the lake below, and for an hour or so afterwards a pillar of dust stood over the mountain peak hundreds of feet to the air.

Tim Murphy and Bob Shearer have opened up in the garage and auto repair business in the shop formerly occupied by R. Smallwood. The name of the new garage is Service Garage & Repair Shop and the boys state they are out to give the best service at all times.

Arrangements for the big carnival to be put on by the local Elks on July 24th and 25th are well under way. Tickets are now on sale for the hydron new, fully equipped, Chevrolet car to be given away on the night of July 25th. Proceeds of this carnival are to be devoted to benevolent purposes.

BREAD!

We could not get along without it. It's the old "Standby".

Why? Because it is all substance and nourishment.

Because it satisfies when other foods do not.

Ours has a real bread flavor and a good substantial slice.

Call up your grocer. He has it.
